## Collecting Your Child from Sessions

The ASA view is that each affiliated club has a duty of reasonable care to swimmers, which extends to an awareness on the part of the club that their junior members have been collected, **in so far as is possible**, at the conclusion of a session.

All junior members and their parents should be aware that if they are not collected by a parent then they should make that known to the club Welfare Officer, or coach who will arrange for the swimmer to be supervised appropriately until a parent arrives or the parent communicates alternative arrangements.

If a parent is going to be delayed in collecting a swimmer, they should contact the Welfare Officer. However, this should be for exceptional circumstances only. No parent will be allowed to do so continuously as this places excess responsibility on the club and may be subject to an interpretation of an extended duty of care.

## Streatham Swimming Club is a Competitive Club

Swimmers who are picked to swim in a gala must make every effort to swim. If you don't feel like turning out on a weekend night to represent your club then you need to think seriously about what you are doing with us. We train swimmers to compete and can only support swimmers who are prepared to turn out at galas.

## Behaviour Standards

Exemplary behaviour is expected of club members at all times. We often share facilities with members of the public and other clubs and we expect swimmers to show that the club has the highest standards. Older swimmers in particular are expected to set an example to younger ones.
